

Curriculum Vitae (CV)

I have done M. Sc in Physics and M. Tech in Materials Science from Institute of Technology Kharagpur. I have finished my Ph. D from Indian Institute of Technology Kanpur in January 2018. My Ph. D topic was “Trap Kinetics in TIPS-Pentacene based Organic Thin Film Transistors (OTFTs): A study using current transients”.

After that I have work as a Project Scientist at National Center for Flexible Electronics, Indian Institute of Technology Kanpur.

I published EIGHT publications in various good journals and attended SIX international conferences in various places. I also awarded with “National Post Doctorate Fellowship” in India in December 2018.
